PROSPECTUS.

THIS Company is being formed with the L chief object of providing owners of property within the Straits Settlements with a second Local Fire Insurance Office, the establishment of which the commercial importance of the Settlements seems fully to

warrant. The volume of Fire Insurance business in the Straits is large and increasing. The existing Company can only take a limited amount on any one block of buildings, and it is reasonable to suppose that a second local Institution would command a goodly share of the risks which are now going to far distant Companies, who offer Insurers no participation in profits, and in which little or no Share interest is locally held. It is notorious that Fire Insurance business in the East has for many year. past been exceedingly profitable. Rates of premium are well maintained, and the Company has no intention of competing on lower terms than commonly exist with Eas-

tern Mutual Offices. The Company will be worked in connection with, and within the Head Office of the Straits Insurance Company, Limited, and by the Board of Directors and Staff of that Institution. The Accounts and Liabilities of each Office will be kept absolutely distinct. Expenses of Management will be shared by the two Companies in such proportions as may be determined by the Directors. Under such joint working both Offices will materially benefit by a con siderable lessening of the said Costs of 1268 Management. Branches or Agencies will be established in such Ports and Places within and outside the Straits Settlements as may appear to afford fields for profitable

business. Agents now acting for the Marine Company will probably all be willing to act for the Fire Office. The Company will, it is assumed, benefit largely by the good will of the Marine Office, and, in consideration of this, 10,000 shares will be offered preferentially to the Proprietors of the latter, from the majority of whom important Fire business may be their stay in Hongkong Harbour: expected. The allotment of the remaining 10,000 shares and of_such of the 10,000 aforesaid which may not be taken up by

Shareholders in the Minne Company will have the most careful attention of the Directors, who are fully alive to the desirbility of obtaining Members who will contributo business. It is the Directors' intention to allot a

fair proportion of Shares to applicants outside the Straits Settlements, and on the principle above indicated. No promotion money has been or will be

The business of the Company will be conducted on Mutual Principles, and the Directors propose that the annual profits be disposed of as follows:-

1st.—In the payment of Interest on the paid-up Capital at the rate of 10 per cent. per annum, said interest to form a first charge on the profits until the Reserve Fund shall have reached \$200,000, and thereafter Interest shall be at such rate, not being less than 10% per annum, as the Company in General Meeting shall from time to time determine.

2nd.—In the establishment and maintenance of a Reserve Fund of \$200,000 to be formed by yearly appropriations as may be determined by Shareholders, after providing for the payment of Interest as above. 3rd.—In the payment of a Bouus to sup-

porters o' the Company in proportion to the net Premiums contributed by them respectively during each 4th. - In adding to the Company Reserve Fund until the same shall

have reached \$600,000. The only Contract entered into on behalf of the Company is an Agreement dated the nineteenth day of July, 1886, and made be- China Fire Insurance Co., Ld....... 20,000 8 tween The Straits Insurance Company, Limited, on the one part and James Guthrie Davidson of Singapore, Advocate, for and on behalf of the Company of the other part, providing for the Joint Direction and Management with the Straits Insurance Company, Limited. Applications for Shares should be made on the enclosed form and lodged with any of the local Banks or their Branches with a Deposit c. 25 on each Share applied for. Prospectuses and Forms of Application can be obtained from the undersigned. Agents of the Straits Insurance Co. Ltd. The Share List will be closed on the 30th September, 1886, for applications from the Straits Settlements, Java, India, China, Japan (and countries therete adjacent), and on the 31st October, 1886, for applications from I Europe, the United States of America and the Australian Colonies.

Is the Daily Press will take the trouble to look up its own file, it will find that the announcement that the honorary degree of LLD. had been conferred upon Sir George Bowen by the University of Cambridge was not published in its issue of the 23rd ultimo, as asserted this morning. The Australian telegram stated that the University will confer the degree, so that we were right, after all, in considering the telegram published by us yesterday evening as late news.

THIS morning a man who was making his

way into the house of Garrison Sergeant Major Meredith with no good intentions met with a rather sudden end to his exploits. He had crossed over by some tenantless houses and had managed to get into the house when he was discovered by Mr Meredith, who was sleeping there. Mr Meredith rushed down stairs and asked what the man wanted there. He could give no satisfactory answer and Mr Meredith was proparing to dispute his exit by the front door when the intruder dashed by him and rushed up the stair with the intention of crossing over by the verandala to an adjoining tenanties house. In attempting this, however, he fell to the ground and suffered so serious injuries that he died on the way to the Government Civil Hospital. A skeleton key was found in his possession. An inquest was held this afternoon on his body.

THERE has evidently been some foul play or suspicious work in connection with the loss of the British barque Arklow. It will be remembered that about a fortnight ago, we reproduced a London telegram from an American paper in which it was stated that the American ship Frank Pendleton, Captain Nichols, had arrived at Queenstown with the mate of the Arklow on board, who reported that his ship had been in collision with an unknown vessel, on the 8th May, that she had been cut to the water's edge. that the Captain, his wife and child and en seamen had taken to the life boat, that it was expected the life boat was lost, and that he, the mate, had put off in a small boat by himself. A few days later, we published a telegram taken from an Australian paper in which it was stated that the Boston had arrived in London and reported that a barque, supposed to be the Atklow, had been spoken on the voyage, and had signalled that her Captain had deserted in an open boat, fearing arrest A further telegram which appears in the American papers seems to substantiate the statements in the second telegram rather than those in the first. It reads :-Queenstown, June 23. The mate of the British barque Arklow, who was picked up at sea in an open boat by the American ship Frank Pendleton, and who said that the Arklow was sunk by a collision May 8th, has disappeared. He left a note stating that his heartrending story of the collision and his subsequent sufferings was false, and added; I left the vessel for a reason which I will hereafter explain.

He had been told that Lord Randolph Churchill had had a good deal to say about him, but he (Mr Gladstone) had not taken the trouble to inquire into it. It was very difficult to describe Churchill, but if he could cut out on half of his qualities he might make, with the other half, a valuable and distinguished public servant.
